

ETC Ion Training Seminar

Hosted by ETC (Electronic Theatre Controls)

Thursday, September 30th

Seminar starts at 1:00pm

This session will provide an overview of the features of the Ion console and its programming syntax. If new to the Ion console, understand that this class will run through the basics at a cursory level. Additional training will be required to gain proficiency.

Participating in this class will familiarize you with the following:

- Identifying key elements of the Ion console user interface and navigation.
- Patching conventional, moving lights and multi-parameter fixtures.
- Recording and playing back basic cues.
- Working with groups.
- Using submasters.
- Managing show files (save, edit, delete).
- Palettes and presets.
- Using Block and Mark.
- Creating Effects.
