

**PRIVATE EVENT  
KANSAS CITY, MO**

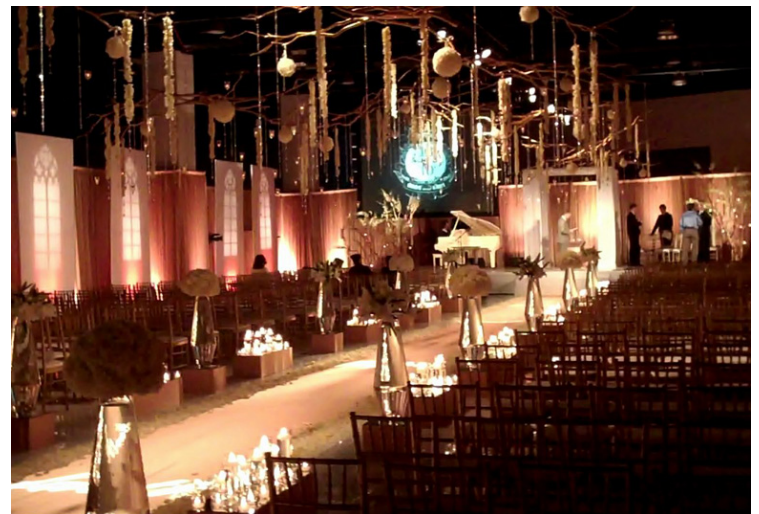

**Challenges**

- Create three separate environment in three rooms spread over multiple venues.
- Saturate hotel ballroom in pink to celebrate New Year
- Transform convention center hall into an elegant church environment for vow renewal ceremony.
- Transform another convention center hall into a comfortable reception for guests.

**Design**

- Over (100) LED fixtures were used to illuminate the hotel ballroom in pink while a truss system supported pinspots, stage lighting, balloon drop, and AV system.
- Church window gobo projections were used to create the "church" while the truss system supported tree branch décor, stage lighting, and AV system.
- The reception featured 14' wide "shades" that were lit to create soft ambient lighting for the guests. LED fixtures and intelligent lights were used to create excitement on the dance floor during the celebration.

**Production**

During the two day celebration, ILC created three separate environments for the guests of the couple. From a high energy New Years party, then elegant vow renewal ceremony, and finally an intimate yet lively reception, Intelligent Lighting Creations designed and produced the event to capture the clients vision. The intricate lighting production transformed each of the rooms and was accentuated with state-of-the-art audio and video systems which stimulated the senses of the guests.
